PROFESSIONAL SUMMARY

Computer Science Engineering student at IIIT Trichy with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Web Development. Skilled in Java, C++, JavaScript, React.js, and Git. Solved 160+ LeetCode problems and built responsive web applications using modern frontend technologies. Seeking Frontend Development opportunities.

EDUCATION

Indian Institute of Information Technology (IIIT), Trichy

B.Tech in Computer Science and Engineering | CGPA: 8.9/10.0
Expected Graduation: 2028

Karnataka State Board (Class XII)

Score: 93.9% | 2022

CBSE Board (Class X)

Score: 91.6% | 2024

KEY PROJECTS

HELLO WORLD BARE-METAL OPERATING SYSTEM

Tech Stack: Assembly (NASM), QEMU, Makefile, WSL (Ubuntu)

- Developed a lightweight bare-metal operating system using 16-bit x86 Assembly.
- Implemented a BIOS-loaded bootloader and minimal kernel.
- Automated build and execution using Makefile and QEMU.
- Achieved a compact system size of approximately 550 bytes.

Mood-Based Destination Decider

Tech Stack: HTML, CSS, JavaScript

- Built a **mood-based travel recommendation website** using HTML, CSS, and JavaScript with an interactive personality quiz.
- Integrated the Open Weather API to display real-time weather data for recommended destinations.
- Designed a **responsive and dynamic UI** with progress tracking, loading animations, and personalized travel insights.

Learning Path Generator

Tech Stack: React.js, JavaScript, CSS, Local Storage

- Built an interactive roadmap generation platform supporting 4 career domains.
- Implemented progress tracking using Local Storage for persistent learning progress.
- Integrated curated learning resources and completion tracking.
- Designed a responsive React-based interface optimized for desktop and mobile devices.

TECHNICAL SKILLS

Languages: Java, C++, C, JavaScript, SQL

Frontend: HTML, CSS, React.js, Responsive Design

Backend: Java, Node.js (Basics)

Databases: MySQL, PostgreSQL (Basics)

Tools: Git, GitHub, VS Code, Vercel

CORE COMPETENCIES

- Data Structures Algorithms in C++
- Object-Oriented Programming (OOP)
- Front end development
- API Integration
- Problem Solving

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Object-Oriented Programming
- Operating Systems (Banker's Algorithm)
- Automata and Formal Languages
- Database Management Systems

ACHIEVEMENTS

- Algorithm Mastery:** Solved 160+ problems on LeetCode.
- Academic Excellence:** Maintained CGPA of 8.9/10 at IIIT Trichy.
- Built and deployed multiple web applications using React.js and JavaScript.
